PAYS STENOGRAPHER'S BILL

[Special to The Times-Dispatch.] RALEIGH, N. C., March 13.—Governor Glenn announced this afternoon the appointment of the State Hospital Commission under the provisions of the act passed by the General Assembly last session, for the management of the institution for the feeble-minded. The commission consists of E. F. Aydt, Elizabeth City; W. A. Erwin, Durham; J. H. Weddington, Charlotte; Dr. J. W. McNeill, Raleigh; Charles A. Webb, Asheville. The first meeting is called for March 27th in this city. Under the act the commission will have the direction of the work of enlarging the present hospital for insane and the location of colonies for epileptics and others. They have the expenditure of \$125,000 per year for four years.

The commission on navigation under the new compulsory pilotage act for the port of Wilmington for the past two years has been absolutely free port on the south Atlantic coast, is just named by Governor Glenn. It consists of James Sprunt, Captain J. W. Harper, C. W. Worth, of Wilmington, and M. C. Guthrie and Richard Doshier, of Southport.

Investigation Costly.
The first item of expense in connection with the legislative investigation of the R. W. Simpson, Jr.-Evening Times-Legislative Conference Passenger Rate Committee incident by the Legislature was paid to-day in the State Treasury in the shape of a bill for \$32 for the services of the stenographer in taking down the evidence and typewriting the report of the committee. The traveling expenses of a number of witnesses and the attorney's fee are among the larger items of expense to come up later. In view of the amount allowed the stenographer, it is safe to predict that the attorney's fee will be not less than \$250.

Announcement is made that Mr. M. L. Shipman will remain with the State Department of Labor and Printing at least for some time yet. Instead of taking the position of private secretary to Congressman Crawford, of the Tenth District. And Congressman Crawford has named as acting secretary Mr. Roswell Plack, of Rutherford county. He is a Wake Forest man. In remaining in the State Department of Labor and Printing many believe here that Mr. Shipman will stand for the nomination as commissioner to succeed Mr. Varner, who it is not thought will seek the nomination for a third term.

Best North Carolinians.

Lieutenant-Governor Francis D. Winston, President of the Senate, said before leaving for his home that in his opinion the General Assembly just adjourned has in a large measure carried out the pledges of the Democratic party in the last campaign. He thinks the results in this direction are much more complete than in usually the case in matters of this kind. The Legislature, he says, seemed to him to be composed of the best type of present-day North Carolinians. He said that no matter how many or what kind of political enemies were planned to be worked out through the legislative policies, it seems to him that the members return to their homes about like they came.

Governor Glenn honored a requisition to-day from the Governor of South Carolina for Mattie Williams, who is in jail at Asheville. She is wanted in Newberry, S. C., on the charge of grand larceny, in

He will see to the collection of the tax imposed, and guard against violations of the regulations as to the size of mesh in nets and other matters.

At a meeting of the executive committee of the board of trustees of the University of North Carolina to-day, in the office of Governor Glenn, the contract was awarded to Mr. Underwood, of Durham, for the erection of the university infirmary. There were bids from a number of contractors. The building is to be completed during the spring. The executive committee also decided to hold a summer term of six weeks, to be under the general direction of the president of the university. Another order made was for the equipment of the physical chemistry department of the university. President Venable was here to attend the meeting of the committee.

The number of whiskey cases tried in the different courts in Durham for the past few weeks exceeds any previous record since the city has been dry. Although the officials of the law are continually placing them before the bar of justice, the ministers of the city are taking an active part in apprehending the evildoers. The assembly considered the entire afternoon of yesterday and the greater portion of this morning in inspecting the grounds and buildings of the Eastern State Hospital, and in comparing notes on the systems of management in use in various asylums. They all expressed great admiration of the almost perfect system now in use here, and warmly congratulated Dr. Brunk on the appearance and condition of the grounds and buildings. Nursing Mothers and Over-burdened Women.

In all stations of life, whose vigor and vitality may have been undermined and broken down by over-work, exacting social duties, the too frequent bearing of children, or other causes, will find in Dr. Pierce's Favorite Prescription the most potent, invigorating restorative strength-giver ever devised for their special benefit. Nursing mothers will find it especially valuable, as it builds up their strength and promotes a abundant nourishment for the child. Expectant mothers too will find it a priceless aid to prepare the system for baby-making, and to bring the ordeal comparatively painless. It can do no harm in any state or condition of the female system.

Delicate, nervous, weak women, who suffer from frequent headaches, backache, dragging-down distress low down in the abdomen, or from painful or irregular monthly periods, giving up or distressed condition, stomach, dizziness, faint spells, see imaginary specks or spots floating before eyes, have disagreeable, pelvic esternal drain, prostration, nervousness, or other displacements of womanly organs from weakness of parts will, whether they experience many or only a few of these symptoms, find relief and permanent cure by using faithfully and fairly persistently Dr. Pierce's Favorite Prescription.

This world-famed specific for woman's weakness, which is the choicest native medicinal roots without a drop of alcohol in its make-up. All the ingredients are printed in plain English on its bottle wrapper and attested under oath. Dr. Pierce thus invites the fullest investigation of his formula, knowing that the science of the most advanced medical knowledge of the world is embodied in the science of all the different schools of practice for the cure of women's peculiar weaknesses and ailments.

If you wish to know more about the composition and professional endorsement of the "Favorite Prescription," send postal card request to Dr. J. C. Pierce, Littleton, N. Y., for his 77c booklet "Liberation of Women."

You can't afford to accept as a substitute for this remedy of unknown composition. Don't do it.

Ramsey, a Canadian, about forty years old, who died in this city at 2 o'clock this morning, was leaving for the cemetery to-day, the old lady met the procession, and asked the name of the dead. "I am his mother!" she exclaimed, as Ramsey's name was uttered, then sinking to the ground in a fainting condition. The poor woman had come from her home in Halifax, Nova Scotia, reaching Petersburg just too late to see her son alive. Ramsey had been sent to the hospital on February 28th, and placed under treatment for an organ disease. Superintendent Williams learned from him that he was from Canada, from him that he was from Canada, and had lived in Richmond during the past three years. The superintendent recently received a letter from a lady in that city concerning Ramsey, and it is thought that she communicated with the mother.

The best pocket timepieces in the world are American watches, and the best American watches are Waltham watches. This is proved by the conclusive and permanent testimony of 15,000,000 Waltham watches. RHEUMATISM AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condition of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be remembered that relief from such trouble is in the blood and cannot be removed by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circulation and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, relieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treatment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free.
